CAREER SERVICE PANEL
OFFICE OF RESEARCH AND DEVELOPMENT
9 April 1973

	Attendees: Chairman
25X1A9A	25 X 1 4 9 4
25X1A9A	Executive Secretary Recording Secretary
25X1A9/	1. The meeting was called to order at 0905 hours by the Chairman. 2. There were no changes to the agenda for 9 April 1973. 3 asked the Recording Secretary to make it a matter of record that the material for each CSP meeting now being placed in the new CSP handbooks is a much better method
25X1A9A	of distribution as all the information needed is essentially in one place.
25X1A9A 25X1A9A	5 expressed his concern about the handling of the minutes for 21 February 1973. He stated that these minutes were the most sensitive to come out of the CSP on employees cautioned the members to handle their handbooks which contain copies of these minutes with the utmost care.
25X1A9A 25X1A9A	6 moved to approve the minutes of 12 March 1973 as written seconded the motion. Panel members concurred.
25X1A9 25X1A9A	7. reported the following: ADDITIONS: Phys. Scientist-Res., GS-14, step 6 transferred from FMSAC to IP&A/ORD on 1 April 1973.
25X1A9A	PROMOTIONS: Secretary Steno, Life Sciences Division/ORD from GS-5 to GS-6 on 1 April 1973.
	Approved For Release 2006/01/03 : SIA-RDP79-00317A000100060019-4

	QSIs: None	
25X1A9A	REASSIGNMENTS: E0/ORD, GS-15 to Office of Training on 9 April 1973.	
25X1A9A	REASSIGNMENTS WITHIN ORD: Computer Programmer, GS-13 from IP&A/ORD to DS&P/ORD.	
25X1A9A	RETIREMENTS: GS-8, Chief, Registry/ORD retired on 23 March (Disability)	1973
25X1A9A	RESIGNATIONS: GS-14, Phys Scientist Res., DS&P/ORD submitted resignation effective 30 June 1973.	
25X1A9A	TDY ASSIGNMENTS: GS-14, Phys. Scientist Res., TA/ORD will be assigned on a loan basis to the Office of ELINT effective 2 April 1973 for a six-month period.	
25X1A9A	SPECIAL NOTE: (Life Sciences) from (Office of Medical Services) returned to OMS on 1 April 1973. Senior Psychologist and Project Officer. With ORD from 7 September 1971.	
25X1A9A	TRAINING NOTES: GS-15, C/PD/ORD has been selected by the Agency Training Selection Board as an alternate to attend the Federal Executive Institute-1973. More information on this to come.	
25X1A9A 25X1A9A	asking that his conversion to Career Employee status be postponed until 1 December 1973 told the Panel that the memorandum had been sent to Dr. Stevens for signature. No action has been taken to date because Dr. Stevens would like to discuss this further with those concerned.	25X1A9A
25X1A9A	9. was asked to explain about	25X1A9A
25X1A9A	detail to OEL.	
25X1A9A	Megotiations were started on this detail several months ago whereby ORD wanted to start an exchange program with those organizations working with ORD in order to help establish a good working relationship at the higher grade level. We offered as a possibility to OEL. They thought about it for a couple of weeks, and then they got enthusiastic about the idea. At the time they got enthusiastic, we became less

SEMPINENTIA

25X1A9A

9. (Continued)

	J. (Continued)
ļ	(Cont'd)
25X1A9A	enthusiastic because our workload was getting tougher. Finally, it came down to the point where OEL said ORD made an offer and 25X1A9 we accept, so ORD couldn't back down. A memorandum was sent over to OEL, signed by Dr. Stevens to the effect that will be assigned on a loan basis for six months, and he will continue to be slotted against ORD's TO. At the end of six months, both OEL and ORD will reconsider the assignment as we may actually loan to OEL for a year - at least that is how we approached it. OEL has promised that assignments will be very worthwhile, and he will get exposure in diverse areas. From that viewpoint, I think it is very worthwhile, but with any reorganization there is no telling what it would mean.
25X1A9A	
25X1A9A 25X1A9A	There is a lot of conversation on that, and it boils down to, "Well they really couldn't, and they had loaned"
5X1A9A 25X1A9A	This is typical of ORD. It always seems to be a unilateral type of thing. We are always giving people to other offices, but we seldom get someone in return. This exchange is a good thing, but it should be a "two-way street."
20/1/10/	Life Sciences has taken people from OMS, TSD, and OSI on temporary detail.
25X1A9A	Nick, none of us disagee with you. However, OEL in past discussions has said that "ORD people don't understand collection; you haven't had enough exposure" I don't believe that but, in any event, to take care of this sort of thing, ORD thought it best to work out a way to send some of our men over there for some exposure. We have all voiced a real desirability

10. Report from the Chairman:

CAREER DEVELOPMENT PLAN: There has been no action by the D/ORD in regard to this.

ORD/CSP Minutes - 3 April 1973: The minutes of this special session are being reviewed by Dr. Stevens as he attended this meeting. These minutes are very sensitive and will be handled in the same manner as those for the 21 February 1973 session.

25X1A9A

11. The CSP members heard a short status report from
on the progress of the Fitness Report Committee.

of trading people and someone has to make the gesture.

!	CONFIDERIOR	
25X1A9A	1 App (Good Fior Redease 2006/0 1/03 : CIA-RDP79-00317 A000100060019-4	25X1
25X1A9A	We now have a draft of a proposal, or critique, and a review will be made by the other committee members. I feel that the first cut of this document should be slanted to the professional personnel, GS-11s and above. The total action should be applied to all of ORD. I feel that there should be a division of this task and those people under the Special Panel should be handled separately.	
25X1A9A	As Chairman of the Special Panel, I can tell you that the Special Panel is using the same kind of approach to career development for the secretarial and clerical personner as the CSP is using for the professionals.	1
20/(1/(0/(Shall we then proceed on the assumption that the Special Panel will be handling those employees below GS-11?	
25X1A9A	Yes.	
25X1A9A	A committee report on fitness reports will be completed in a couple of weeks.	
	12. The CSP then reviewed the second ranking results on GS-12s. (Copy Attached)	
25X1A9A	It is interesting to add these results up and see	25X1A9A
25X1A9A	the deviation from the average mean as follows: 1) deviated only two points away from the mean, 2)] 25X1A9A
25X1A9A	with -our points, 3) with eight points, 4) and were next with ten points, 5) was next with 12 points, and 6) with 16 points.	25X1A9A
25X1A9A		25X1A9A 25X1A9A
25X1A9A	The biggest discrepancy in the new ratings is that two of the CSP members graded #3 on the list Did the rest of us seriously misjudge him? 25X1A9A 25X1A9A	25X1A9A 25X1A9A
25X1A9A	The greatest dispersion was with 14 poin	
25X1A9A	away from the average. These deviation results reflect where	25X1A9A
25X1A9A	is next on the list, is next, next,	25X1A9A
25X1A9A	follows that, is tight. only had one	25X1A9A

25X1

(Continued) 12. 25X1A9A 25X1A9A DISCUSSION ON L 25X1A9A has been away for a year in training getting his doctorate, and it seems he is being penalized because of that. If ORD is paying for to go out and get this training, he wasn't a problem. There is no way I could envision anybody rating #7 or #8. I rated him based upon not what he did in the past year, but what he did in the previous years. 25X1A9A 25X1A9A How would you compare | situation with 25X1A9A who was sent out to get more training in order to "retread" his qualifications? 25X1A9A 25X1A9A Is it the impression of the Panel that is being "retreaded" and this is the purpose of ORD allowing him to get his doctorate? If it is, has come a long way down since I knew him in RP/ORD. He was one of the best 25X1A9A up-and-coming young professionals. There seems to be something drastically wrong with this current rating. 25X1A9A When does he get out of school? 25X1A9A He is out now. He hasn't received his doctorate yet. He is preparing his dissertation; he has all of his research done. He is on leave now. His immediate supervisor is 25X1A9A 25X1A9A stated that there has been no good 13. clarification ever given to the CSP members as to whether the CSP was talking literally about competitive evaluation performance as of now, a promotion list, or a projection where the man is going in ORD. He further stated that in view of what ORD has just been through in declaring people excess, we need clarification on this. 25X1A9A 25X1A9A 25X1A9A 14. pointed out to T that and his Evaluation Criteria Committee had prepared the Professional Ranking Evaluation Criteria which was approved as guidelines for the CSP in September 1972. The approval of the Ranking List and Promotability List was done by the CSP in October 1972. 25X1A9A questioned the members as to what they were going to do about the first five men on the GS-12 ranking list. He asked about the promotability list. \Box 25X1A9A also questioned the Panel about what they were going to do about the men on the bottom of the list.

5

CONTROL TO THE TENER OF THE SECOND Approved For Release 2006/01/03 . CIA-RDP79-00317A000100060019-4 25X1A9A was cord that the CSP had adopted a new procedure on competitive evaluation which was approved by the CSP in March 1973 which called for a 2-month exercise on ranking and promotability. 17. The Chairman directed that discussion on the Promotability List for GS-12s be made a part of the Agenda for the May meeting. moved that the current competitive 18. I evaluation ratings on the GS-12s be accepted as published. seconded the motion. Members concurred. asked that his objection be made part of the record which was the CSP was promiscuous in their evaluation of ORD people. He felt the Panel was trying to get rid of the evaluation without discussion. 25X1A9A 20. Panel members and the Chairman asked whether he had reviewed the minutes for the last two CSP meetings in which discussion had taken place, and the changes in procedure of ranking and promotability had been made. requested that his objection remain part of the record, perhaps substituting capricious and arbitrary for the word promiscuous as stated in Item 19. The CSP then reviewed the compilation of data on the Competitive Evaluation of GS-13s and discussion followed. (Copy attached) should be considered higher than 25X1A9A I think produced more in terms of product I feel they are both going to be supergrade than L material. They are both very strong and capable men. Thas had program difficulties not of his doing. He 25X1A9A also moves around and has more contacts in government and industry than most people in the GS-12 - GS-13 status. is somewhat naive at this point in time. He has never been 25X1A9A "thrown out in the market place" so to speak. very versatile, cool, sharp and aggressive. He has a bad weakness in that he acts as if he is still in the Navy taking orders from a commanding officer. He is very narrow in his approach and response to direction and supervision. He

	23. (Continued)
25X1A9A	Aren't you talking about his capability in terms of what he has done?
	I am not aware of anything has done. He did attend an MIT course last summer. I don't know what the result has been. I just don't see as a solid as a solid 25X1 professional engineer.
25X1A9A 25X1	is a field engineer - not a professional. If you grade him with this particular group, he would have
25X1 25X1	to come down on the end of the list. If I had a field exercise, I would want If ORD requires field engineer talent, we should have If we don't we should put him in an area
25X1A9A	where he can operate 25X1A9A
	Why did you rate #5, 25X2A8A
25X1A9A	in evaluation of people. I looked at the ratings done last year. I rated him inordinately high last year.
25X1	The sort of things that was doing impressed me because he is one of those men who is constantly being penalized because
25X1	he is an introvert. But that is part of the gameI am not knocking it. is a solid professional and has done a good job in the old Analysis group.
25X1A9A	is next on the list.
25X1A9A _F	
	is under the gun with his project, and it will be interesting to see if he can carry it off. Because of the press of other things going on, he hasn't had too much senior support in what he is doing, and he is trying to carry on in a very independent fashion a very complex mode of management of military, Agency and contractor interfaces. I don't think too many men would carry it off that smoothly, especially without a budget. He is being challenged in a very comprehensive way with this. I basically agree - I haven't seen any great engineering accomplishments. On the other hand, he is a hard worker, has pushed hard, and has identified a lot of problems. He has been able to do a good job in interfacing field support work. He is being challenged and in another two weeks I think we will have a better way of determining whether he is a good GS-13 or not.
25X1A9A	24 then attended the meeting and gave the CSP members more information on the reorganization of ORD.
0EV4404	25. Discussion then continued on 25X1A9A 25X1A9A
25X1A9A	(Addressed to) Did you rate against the anticipated challenge or compared
	it to what he is doing now?
